Are the Offerings we make in

## THIS JULY CLEARANCE SALE TOO GOOD?

JULY is usually the dullest of dull months, so we put on this Clearance Sale to keep us busy and to get rid of all SPRING CLOTHING. So far this month our business has been very much like it is in the Fall of the year. The trade at times was more than we could handle. And just think, in the dullest month of the year, too! But the values offered have never been equaled in this Town, so why should not the business be immense?

This Sale has amply illustrated how well the public realizes the unmatched quality of our offerings, and it has brought such selling as we never knew before. ## White Stone Lithia Water IS THE LIGHTEST MINERAL WATER,

And retains its gases longer than other Water on the market.

### THIS IS CLAIMING A GREAT DEAL,

But you can make the test yourself by taking a bottle of WHITE STONE CARBONATED WATER and opening it, and at the same time opening a bottle of any other, and you will be surprised how much longer WHITE STONE LITHIA WATER will retain its gases than the other. Another test you can make of the softness of this water, that it does not have the sharp, burning sensation on the tongue or stomach when drinking it that most carbonated waters have. If you will give it a trial you will have none other.

The WHITE STONE LITHIA ALE will retain some of its gases after remaining open 48 hours, while most Ginger Ale on the market will not retain theirs 48 seconds.

All we ask of you is to make a test of our Water and Ale, and we know you will be convinced of their superiority.

### WHITE STONE LITHIA HOTEL

Will be open for guests on July 1st. It is the largest brick hotel in South and North Carolina or Georgia, covers more than one acre of land, with all modern improvements, for Winter or Summer. Nature has done all in its power for the place, and we will do the rest.

The Hotel is situated on a high elevation, and surrounded with beautiful shade trees of many varieties. The office is 70 feet square, with the rotunda extending to the top floor. The ball room is 40 feet by 120 feet, on the fourth floor, with windows on all sides, making it very cool and pleasant.

We are building a car line from the Spring to the Southern Railway, a distance of one and a half miles.

## White Stone Lithia Water Company, White Stone Springs, South Carolina

The largest brick Hotel in the Carolinas or Georgia, with all modern improvements, will be open for guests July 1.

—The Hub Evans dispensary raid in Greenville is likely to produce something of a harvest for lawyers. It has been understood that Evans would be indicted in the criminal court, and it is said that an able lawyer has been employed to assist in the prosecution. Other counsel have been retained for his defence, and a lively time may be expected when the trial comes on. Mr. Evans said before and after the scrimmage that he would bring an action for libel against the Daily News, and his indictment in the criminal court will hardly lessen the desire for vindication in the civil court.

The negro was soon captured and was held for a time in the possession of a posse of citizens. They were unable, however, to protect him and he was taken from them, saturated with oil, tied to a tree and burned."

### Veterans Take Notice.

The surviving soldiers or sailors of the State or Confederate States in the late war between the States, in each Township, will meet at 3:30 o'clock p. m., on first Saturday in August at their usual voting precincts (except in the city of Anderson and Polzer and they will meet at 5 o'clock p. m.) and having organized by electing a Chairman and Secretary, shall elect by ballot an ex-Confederate soldier or sailor, not a holder of nor an applicant for a pension, as the representative of the Veterans of said Township. Now in case you fail to meet and elect a representative and you are left off of the pension roll, no one will be to blame except yourselves as you are obliged to report to your representative.

### How the Work of Completing the Rolls will be Done.

The following is a portion of an important circular of instructions just issued by Chairman Zimmerman Davis of the State committee on details of enrollment of Confederate Veterans, which work is now about to begin in each county in the State:

County Enrollment Committee—The county enrollment committee shall consist of one veteran, who shall be the chairman, and of one son of a veteran and one daughter of the Confederacy.

Township Veterans Enrollment Committee, duties of—There shall be in every township an enrollment committee of veterans, which shall consist of three or more veterans appointed by the veteran member of the county committee, no definite number being fixed for the membership of this township committee, and the number of committeemen appointed may be increased as the size of the township or work to be done may require; so that there may be one or more members of this township veterans' committee appointed in each neighborhood, city, ward or village. The township committee of veterans shall have the exclusive control of the enrollment, and they only shall have the right to enroll or order a veteran's name upon evidence satisfactory to the committee that the person enrolled rendered military or naval service to the Confederacy, and while it is exceedingly important that no name entitled to enrollment shall be omitted from the roll, it is the duty of the township enrollment committee of veterans to carefully examine and guard the record and see that no name not entitled to enrollment shall be enrolled. Any member of the township enrollment committee of veterans shall have the right to enter or have entered on the township enrollment book the name or names of veterans with details of service, etc., subject to the right of a majority of the veteran township enrollment committee at any time to revise, correct or amend the record.

Auxiliary Work of Sons and Daughters—Simultaneously with the appointment of the township veterans' enrollment committee, the Sons of Veterans and Daughters of the Confederacy are requested to organize in every neighborhood and township for the purpose of arousing interest locally, and, by their individual and organized efforts, endeavor to obtain the name of every veteran from the neighborhood entitled to enrollment with proof of his service, and submitting the same to the veteran township committee for enrollment and to render clerical and other aid to said veterans' committee. The county enrollment committee is requested to arouse the Sons of Veterans and Daughters of the Confederacy to this important auxiliary work to be rendered by them.

Who Are Entitled to Enrollment—Only those are entitled to enrollment who, while citizens or residents of South Carolina, rendered military or naval service to the Confederacy in the war (1861 to 1865) between the States. Again: Those entitled to enrollment must have from South Carolina served (1) in the Confederate States navy; or (2) in the regular army of the Confederacy; or (3) in the volunteer provisional army of the Confederacy; or served the Confederacy (4) in the South Carolina reserves; or (5) in the South Carolina militia; or (6) in the corps of South Carolina Military (Citadel) Academy cadets; or (7) in the corps of South Carolina Arsenal cadets.

Illustration of Working of Plan—If "A. B." entered from a township of Fairfield County, Co. A of the Sixth South Carolina Volunteer Infantry, and was subsequently removed to Chester county township, he would be enrolled in both the Fairfield township book and in the Chester township book, but in each as having served in Co. A, Sixth South Carolina regiment of Infantry—thus having two enrollments by township and only one by military organization; if, however, he was transferred in the Seventeenth regiment, South Carolina Volunteer Infantry, or into the Confederate navy, he would be enrolled in two township books; and subsequently entered in two places when the enrollment by organization in later years is completed from the county enrollment book.

Disposition of Township Book when Completed—Every township enrollment book when completed shall be by the township committee of veterans turned over to the clerk of the Court of the county, whose receipt shall be taken therefor, and the chairman of the county committee notified of the fact. Upon receiving each township enrollment book, the clerk of the court shall, as directed by law, record the names of the veterans with details of service, etc., into the county enrollment book, and both township and county enrollment books shall become permanent records in his office.
